Figure 1 is a line graph showing the number of cases of COVID-19 in the United States from March 2020 to March 2021. The x-axis represents time in months, from March 2020 to March 2021. The y-axis represents the number of cases, ranging from 0 to 2000. The graph shows a sharp increase in cases starting in March 2020, peaking in May 2020 at approximately 1800 cases, followed by a decline and then a second, smaller peak in November 2020 at approximately 1000 cases. The number of cases then declines again, reaching near zero by March 2021.
